

20 May 2021

**Hurricane Energy plc**

("Hurricane" or the "Company")

**Confirmation of details of the Convening Hearing**

Further to the practice statement letter published by Hurricane on 30 April 2021 in connection with the restructuring plan (the "Restructuring Plan") proposed under Part 26A of the Companies Act 2006 (the "Practice Statement Letter"), the Company confirms that the Convening Hearing relating to the Restructuring Plan will take place on Friday 21 May 2021 at 10:30 a.m. (London time) before Mr Justice Zacaroli, with case number CR-2021-000852. Attendance at the Convening Hearing will be virtually via Microsoft Teams in light of the COVID-19 pandemic.

The Convening Hearing is for the purposes of seeking an order making certain directions in relation to the Restructuring Plan including permission to convene a single meeting of Bondholders for the purpose of considering and, if thought fit, approving the Restructuring Plan.

The Company also confirms that an updated draft of the Explanatory Statement (including appendices) has been uploaded to the Company's website at [www.hurricaneenergy.com](http://www.hurricaneenergy.com).

Capitalised terms used but not defined in this notice shall have the meaning given to them in the Practice Statement Letter.

**About Hurricane**

Hurricane was established to discover, appraise and develop hydrocarbon resources associated with naturally fractured basement reservoirs. The Company's acreage is concentrated on the Rona Ridge, in the West of Shetland region of the UK Continental Shelf.

The Lancaster field (100% owned by Hurricane) is the UK's first producing basement field. Hurricane is pursuing a phased development of Lancaster, starting with an Early Production System consisting of

two wells tied-back to the Aoka Mizu FPSO. Hydrocarbons were introduced to the FPSO system on 11 May 2019 and the first oil milestone was achieved on 4 June 2019.

In September 2018, Spirit Energy farmed-in to 50% of the Lincoln and Warwick assets, committing to a phased work programme targeting sanction of an initial stage of full field development.
